FAQ

Is there a sibling discount?

Yes, there is a \$50 discount For siblings registered at the same time.

What happens after my child completes the survival swimming series?

Upon completion of survival lessons, all students are encouraged to continue with once a week lessons for retention, enjoyment and skill enhancement. The cost of the session will be pro-rated according to the number of weeks remaining in the current session.

- 10 min lesson is \$20 per lesson
- 15 min lesson is \$30 per lesson
- 20 min lesson is \$40 per lesson

The total cost of once a week lessons will be determined by the number of lesson in the session. Due to vacations, individual schedules, and when your child has completed their survival lessons the number of lessons per session will vary throughout the year.

Why is it worth the investment to come to you rather than another swim program?

Please keep in mind that you are buying private lessons for your child. Instead of your child being one of many, our lessons are one-on-one, with our undivided attention. In 4 to 6 weeks, your child will have a better chance to survive an aquatic incident, along with the fundamental skills to safely enjoy the water. We have not found another program that comes close to what we can teach your child in a matter of weeks. We encourage you to shop around, but compare the results achieved and the time frame involved, as much as pricing.

Why do your lessons work, when other lessons have failed?

The reason our lessons are so effective is that we have professional, mature, highly skilled instructors, and a proven method developed over nearly 40 years. Our individualized approach maximizes your child's learning experience. We are a small swim school. We strive to build meaningful relationships with each of our students and their families. Our warm water indoor pool offers a calm, tranquil environment to practice new skills while providing a balance between work and play.

When are lessons scheduled?

Our lessons are scheduled weekly, Tuesday through Fridays, year round. Please contact Emily directly, to find out specific lesson times that are available for the current session.

How do I enroll?

Please e-mail Emily directly ekays@infantaquatics.com or call 720-215 8849 to secure an available lesson time for your child. You will then be sent a parent information packet, lesson confirmation and invoice. You can bring all completed paperwork and initial payment with you to your first scheduled lesson.

How Soon Can We Start?

We start new students weekly, when there is an available opening on the schedule. Once the schedule is full, your child will be placed on a waiting list.

Do you offer new students a trial lesson?

We do not offer new students a trial lesson. Learning a new skill is challenging and takes time and practice. Swimming is no different. We ask you to make an initial commitment to a series of lessons so that it allows your child the opportunity to become familiar with a new environment, build a trusting relationship with the instructor, and work on their swimming skills.
